180,00€

Motore ad elevata potenza, calibrato e proporzionato per 3 LED High Power per applicazioni esterne, interne con alto tasso di umidità.

Prodotto di punta della gamma Taurus: è il prodotto con la più ampia offerta di flange. Dispositivo che, data la sua compattezza, permette di essere utilizzato in un numero considerevole di applicazioni, per illuminare pareti e percorsi. Grazie al grado di IP dichiarato, può essere utilizzato in ambienti con elevato tasso di umidità, quali docce o saune, nonché in bocche di lupo. Sono previste due controcasse per l'installazione in gettata, oltre a quella standard è prevista una controcassa speciale per installazione filo pavimento. La controcassa non è in dotazione con il faro. In questa versione a 230Vac permette di effettuare collegamenti semplici su lunghe distanze.

High performance fixture, calibrated and proportioned for 3 pieces of High Power LEDs for outdoor or indoor applications, also in places with high humidity.

Top sales product of Taurus series: it is the product with the widest range of flanges. Due to its compactness, the item TA25 allows it to be used in a lot of applications, to illuminate walls and paths. As well as its IP rating, it can be used in high humidity environments such as showers or saunas as well as in basement window wells. Karma company offers you two different plastic recessed boxes for installation, in addition to the standard one, there is special housing for recessed to the flooring installation. The back cover is not supplied with the fixture, you have to request it separately. In this 230Vac version it allows simple connections over long distances.
